

Rehabilitation at Home

Rehabilitate in the safety, comfort and privacy of your own home.

Depending on your needs, Ramsay Connect can provide effective and convenient rehabilitation services following a wide range of surgical procedures and for medical conditions including:

- ✓ Joint replacements
- ✓ Reconditioning
- ✓ Mobility problems and falls
- ✓ Fractures
- ✓ Neurological conditions
- ✓ Respiratory conditions
- ✓ Cardiac conditions

From here, Ramsay Connect will explore a range of available funding options. If you are eligible for the program, you will receive your home services at no cost to you.

Services in your Home

Depending on your needs, the following services can be provided:

- ✓ Physiotherapy, to improve your strength, balance, mobility and safety in and around your home.

- ✓ Nursing, to help you with dressings and wound care
- ✓ Occupational therapy, to help you achieve independence and safety in activities of daily living.
- ✓ Personal care, to help with showering and dressing.
- ✓ Home care, for domestic support such as cleaning.
- ✓ Meals, delivered to your home to help in the early days after leaving hospital.

This program does not provide for a doctor to visit you while at home.

Your Care Coordinator will liaise with your referring doctor and GP as required throughout your program.

Getting Started

To get things started you will need a referral from your hospital or doctor. You will then be contacted by your Ramsay Connect Care Coordinator who will discuss your individual needs, manage the funding requirements associated with your program and put the most suitable services in place for you.
